11	116646	I want to lauch a complaint as a respectable citizen of Pakistan against Ary tv program " Kaise Tere ghudgarzi". This program and the contents are inciting violence and extreme in few groups of our country. Even i cannot tolerate such a inhumane and injustice in the country as shown in television. What the channel is trying to educate people and common masses. Do we live in banana republic of Pakistan where females cannot be abducted with weapons and can be used at any purpose.Why the powerful holds the most privilege in society. If Pakistan Media regulatory authority is present at the moment i request concern officials to take down the drama and ask director to stop identifying such sensitive areas of country. It shows how a poor man is living a misery in country while the eliot class holds the upper hand in law enforcement. It is a humble request to delte all content for the drama and ask director to spend money for affected families which have tolerated such a inhumane behavior. May god bless u sir. .You are requested to look into the matter and take serious action against these type of contents immediately, please.	ARY Digital

13	116658	<p>Salam, I want to complain about a Pakistani drama 'Habs' airing on ARY Digital that I believe is indirectly targeting Islam.</p> <p>https://youtu.be/4RqGdUktXRU 19:33 to 21:00</p> <p>Kindly go through the mentioned timestamps in the video link attached for reference.</p> <p>It is the drama 'Habs' aired on ARY Digital and this link is with regards to a wife confiding into her husband's best friend about issues in her family, hiding things from her husband, lying to her husband about who she's on the phone with and has constant interaction with her husband's best friend without their meetings/conversations being in the husband's knowledge.</p> <p>When the husband finally confronts both his wife and his best friend regarding their behaviour - they both get offended. In the mentioned timestamps in the video link, his friend is discussing the situation with his mother where they regard him as being mentally sick and using terms like 'tang nazri' and 'giri hui soch'.</p> <p>All of these terms are indirectly targeting Islam. Islam preaches modesty. Men and women who are non-mahram to each other should maintain proper hijab (modesty and decency) in speech, actions and dressing. Having conversations with a non-mahram isn't allowed for a man or a woman unless out of necessity. So of course the actions done by the wife and husband's best friend in this particular drama were un-Islamic. Then when the husband talks about how inappropriate the actions are - to regard him as mentally sick and regard his 'soch' (thoughts) as narrow minded is indirectly also terming Islam as narrow minded. Why should we create acceptance for actions that are highly inappropriate AND un-Islamic?</p> <p>Pakistan is an Islamic republic and although we have strayed far far away from our religion in many aspects unfortunately - it is not right for us to promote such ideals that supposedly do influence the public on a great scale. These dramas are watched by the masses in great numbers and each channel should take responsibility for the content they air.</p> <p>Kindly take this email into consideration and think about the impact of the content before airing it. We should strive to make content to promote Islam and, You are requested to look into the matter and take necessary action as per law, please.</p>	ARY Digital
