8	114248	It is stated that, I being a respectable citizen of this Honorary Country and also being a Muslim feel very ashamed of the act that i saw today on the reality show "Champions League" on BOL television. My question is that, Is this the Country that is built upon the belives and Laws of Islam and is standing upon the pillars of Islamic educations. The Country where the rights of every specimen is preserved and also where the Islamic Culture is preserved. Not only Today, but it became a fashion to show the unbecfitting dressing of contestants in the reality show on Bol entertainment television, especially the Ladies contestants. The way they dress themselves is extremely shameful for everyone. The non-appropriate dressing impart serious impact on young masses. The Islamic Culture is forbidden and Westren Culture is adopted by them. According to PEMRA rules 2009, under schedule 2(1) (a)(b), it is very clear that anysort unbearable act must be taken under strict action by the Honorary Authority. So, its a huge and humble request to kindly, take a strick action against these sort of acts and also send a notice to Channel, to stop this. I shall be very thankful to you . email	Bol News

20	114230	Dear Sir/Ma'am,  I am writing to file a complaint against Show; Khabaryar episode 119 aired on NEO news network on 23rd Dec 2020. I regularly watch this show and appreciate the great work done in this show by Mr Aftab Iqbal and his team but lately i have observed that the language being used in the show both in comic skits and in general discussions is often derogatory, sub-standard and doesn't represent the true culture and language of Pakistan. Characters often refer to each other as "Salaya", "ani Deya" "ani Ma deya" such words are used in an insulting manner in the show. Similarly, in few previous episodes i have observed that jokes are made and people are being ridiculed because of their disabilities or because of the colour of their skin, a character named "Aslam Chita" is often made fun of and ridiculed just because of the colour of his skin . This has to STOP! The whole world is moving towards a more tolerant society and yet in our Pakistani shows we are teaching our kids to make fun of other people's disability or ridicule them or discriminate against them just because they are dark in colour or disabled? People of all age groups and of all background watch this show or similar shows on national tv, therefore responsibility lies firstly on the production team of the show, secondly on the regulatory body i.e PEMRA to rectify and avoid such mistakes, so that such language and insults do not become the new norm in our society.  Please, i urge you to take some suitable action against it and perhaps release a policy statement against ridiculing people's disabilities or to discriminate against them.  Looking forward to your reply  Thanks  Yours Sinc  . email	Neo
